A short game

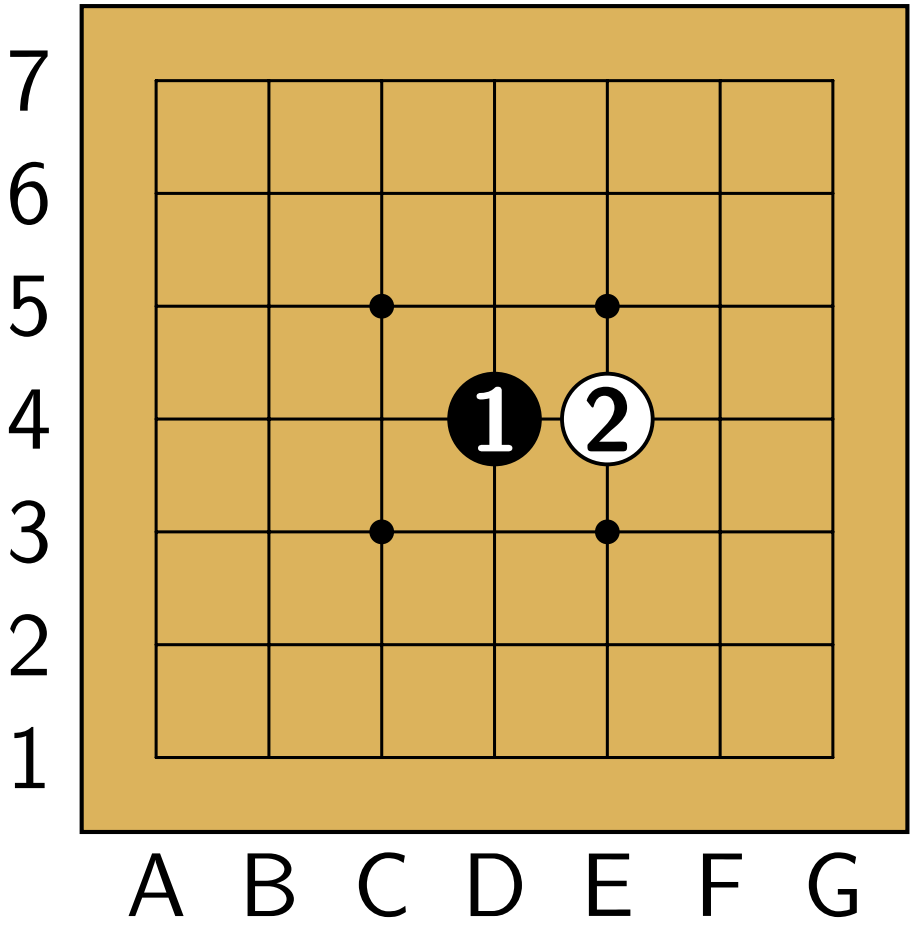

A game on a 7x7 board, with comments.

A short game

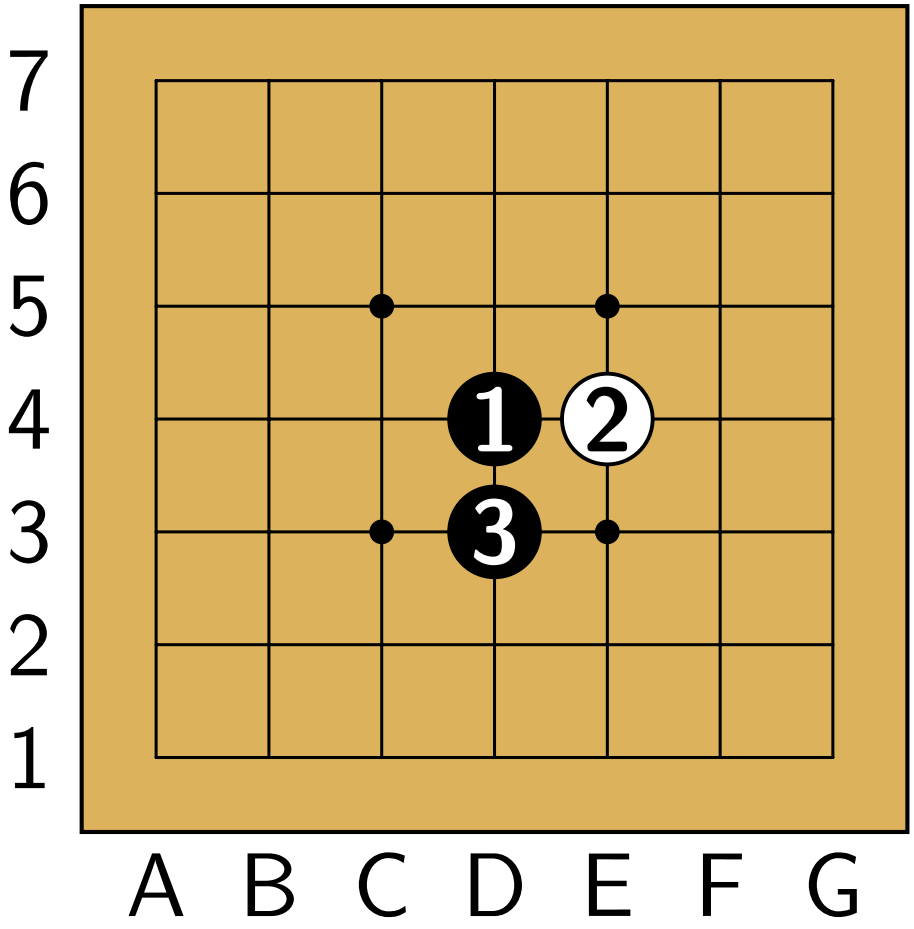

Black takes the middle line.

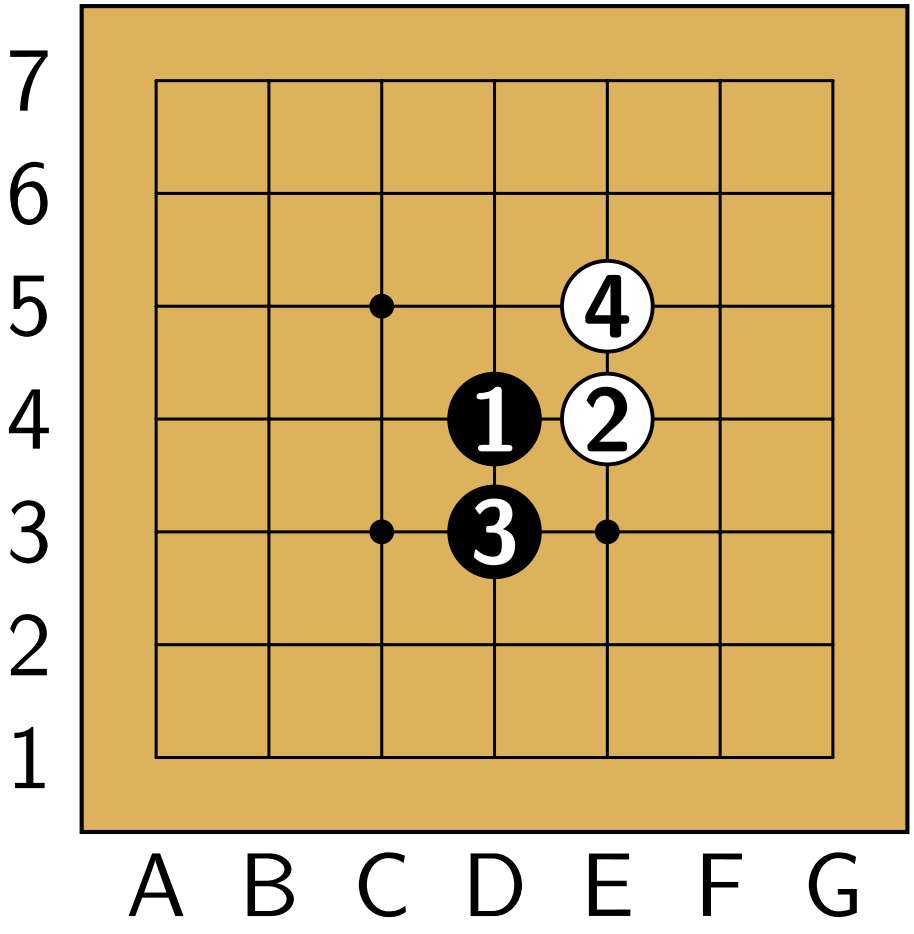

A short game

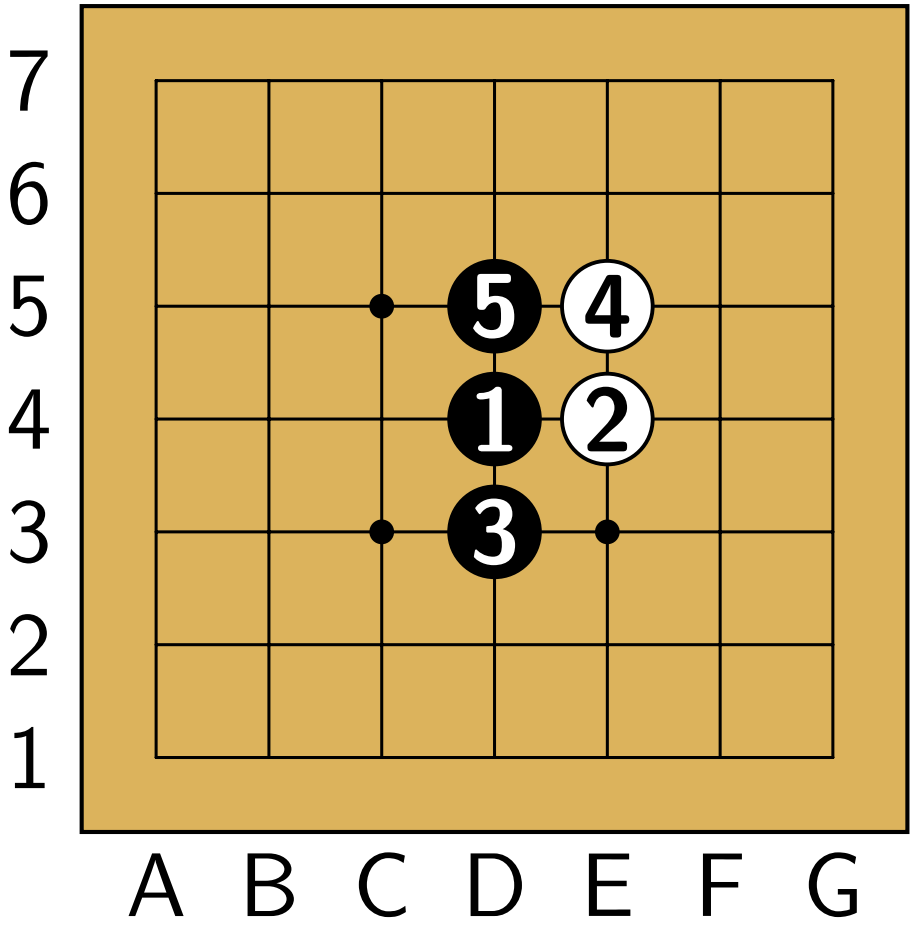

A short game

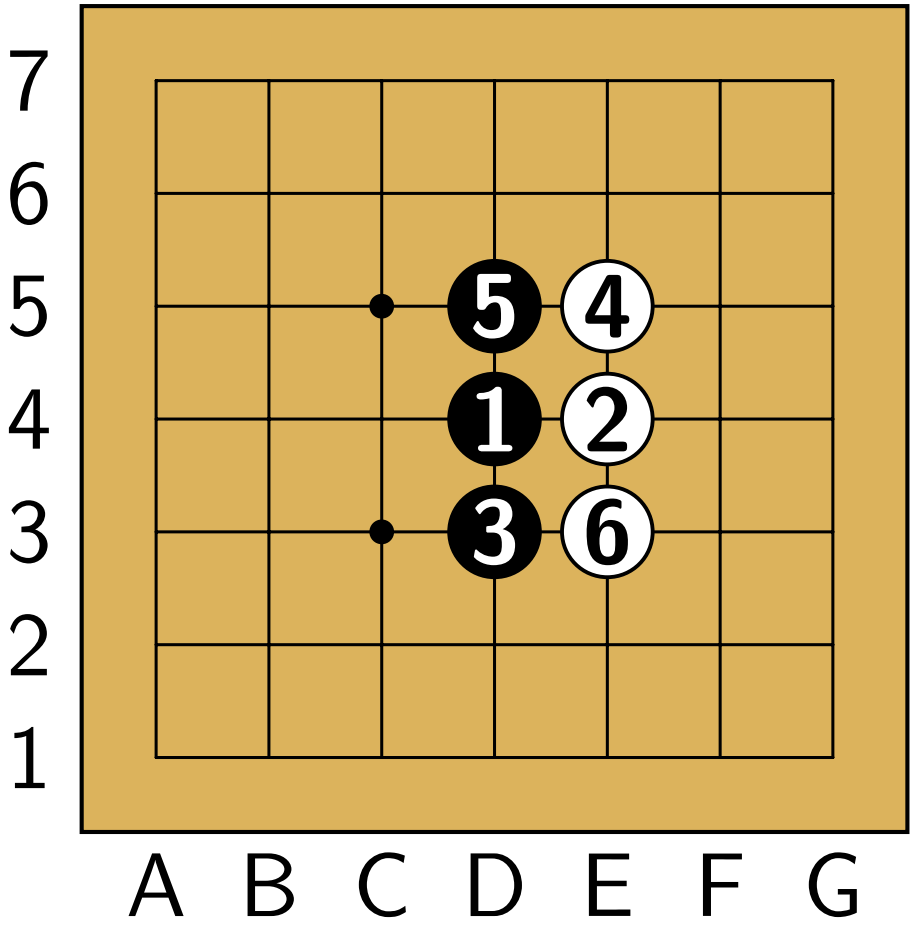

A short game

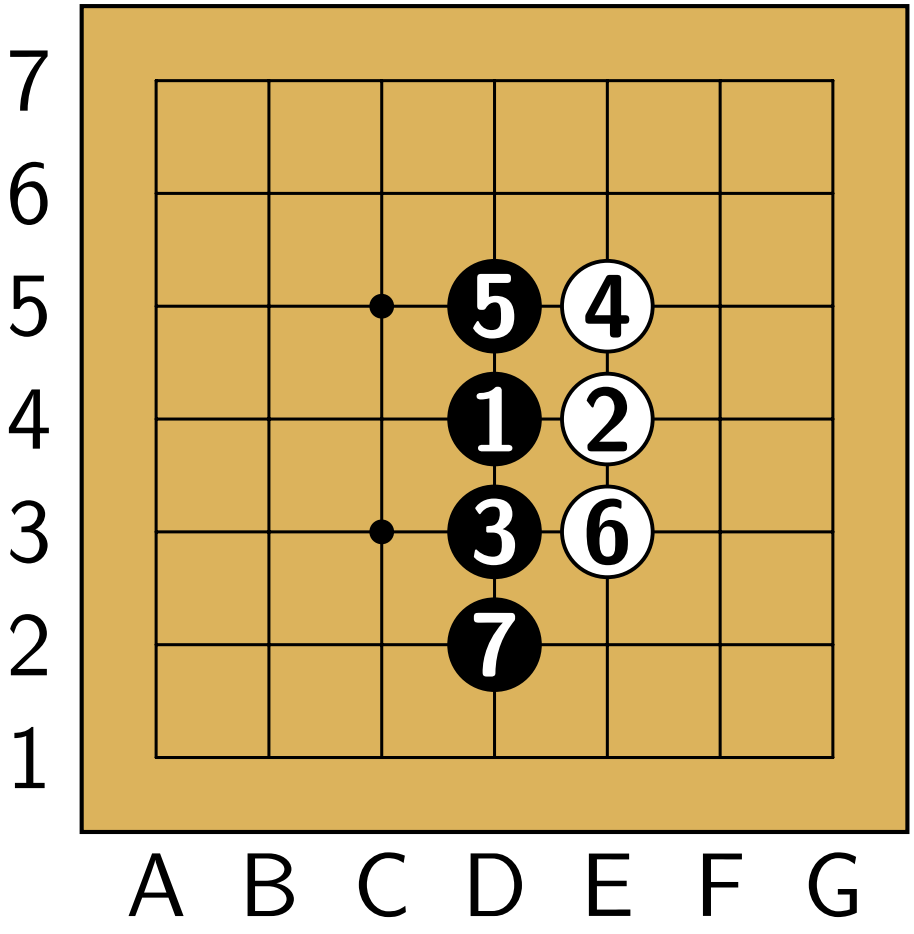

A short game

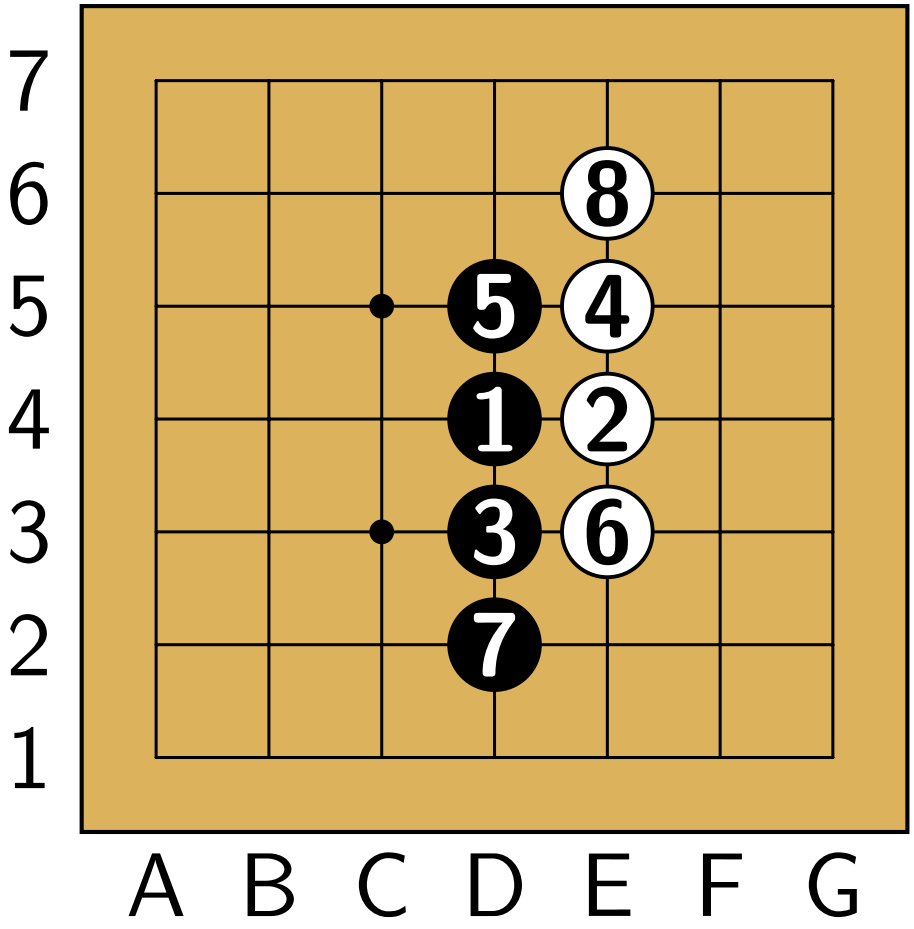

A short game

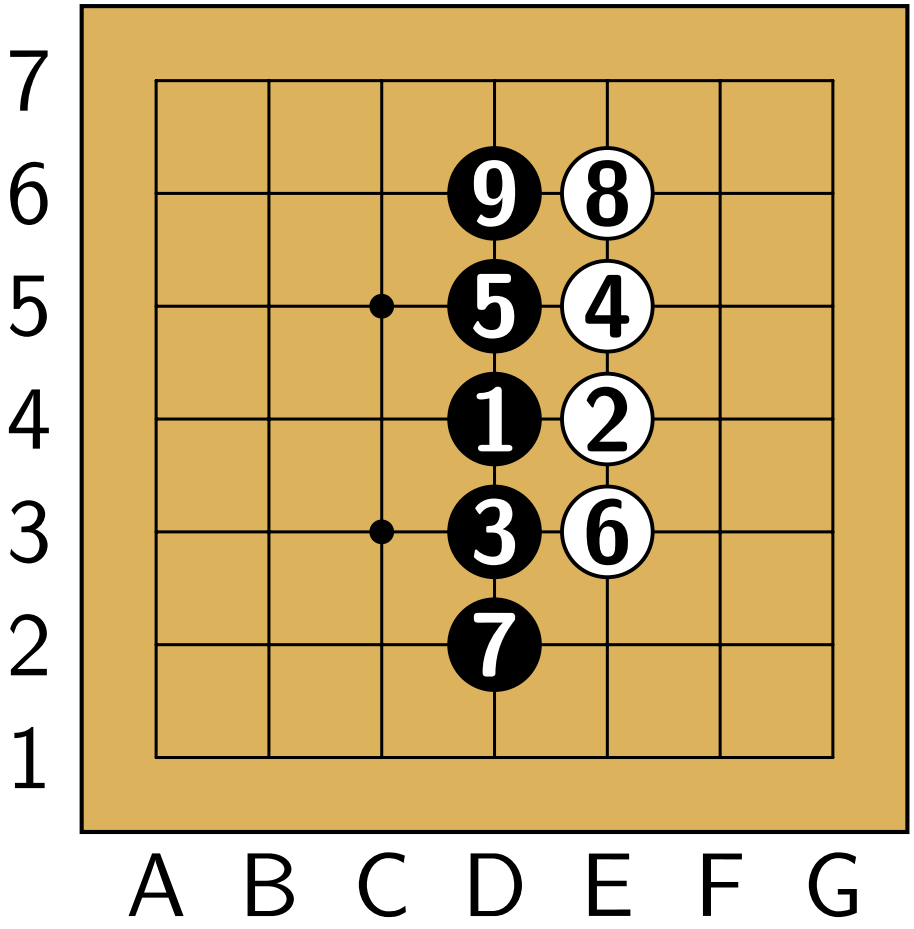

A short game

A short game

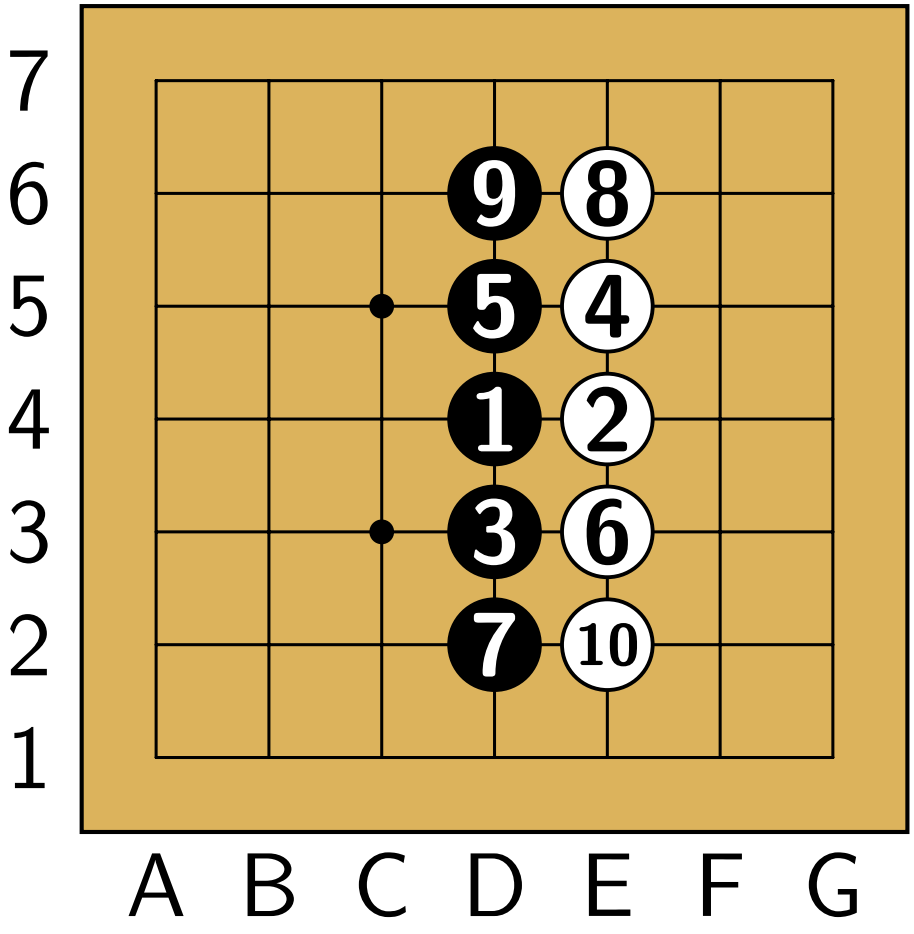

A short game

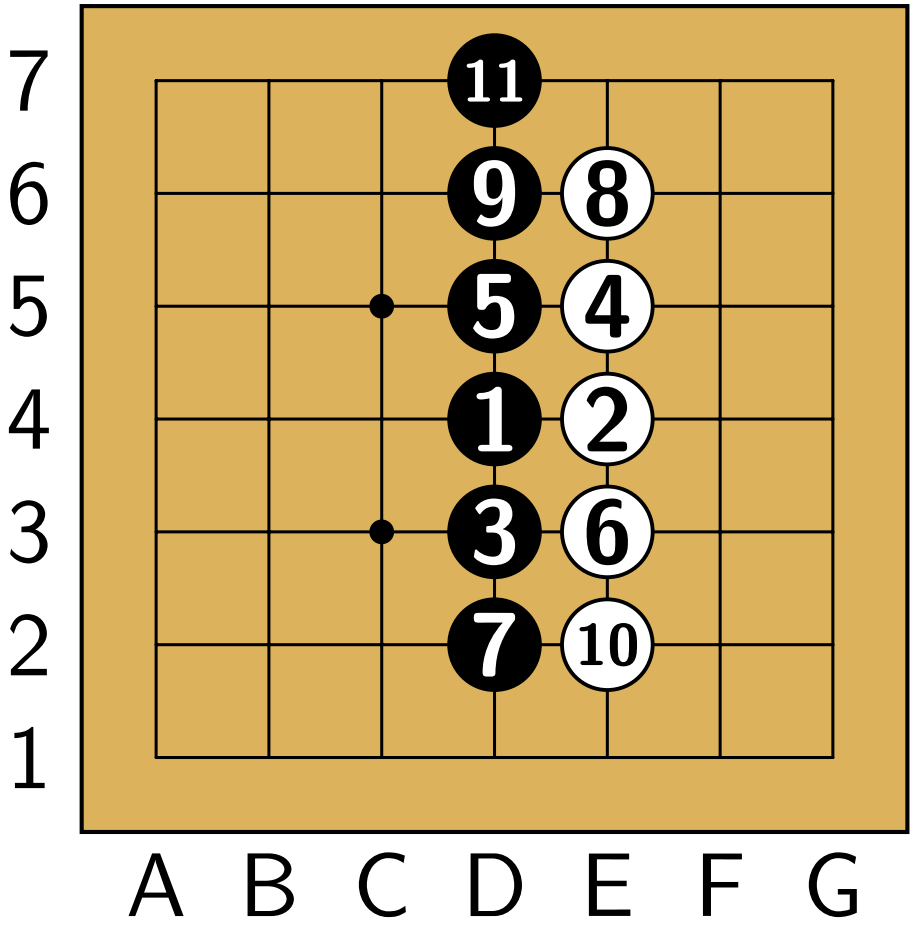

Black will have three columns,
White only two.

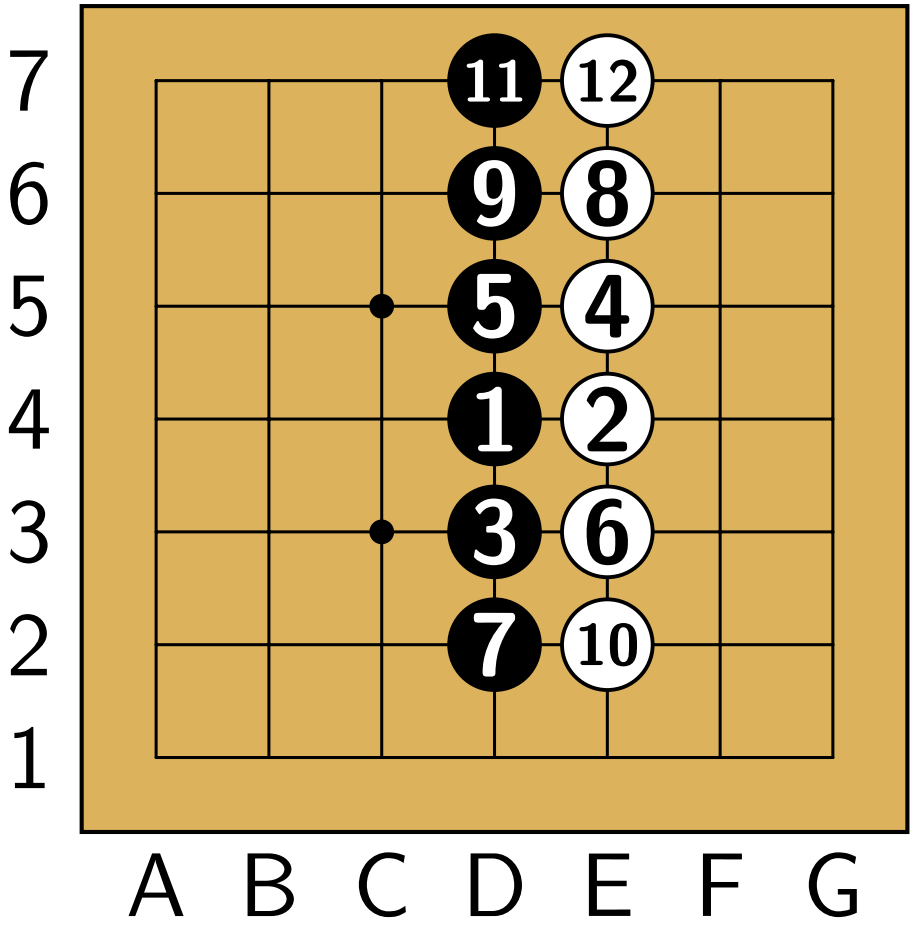

A short game

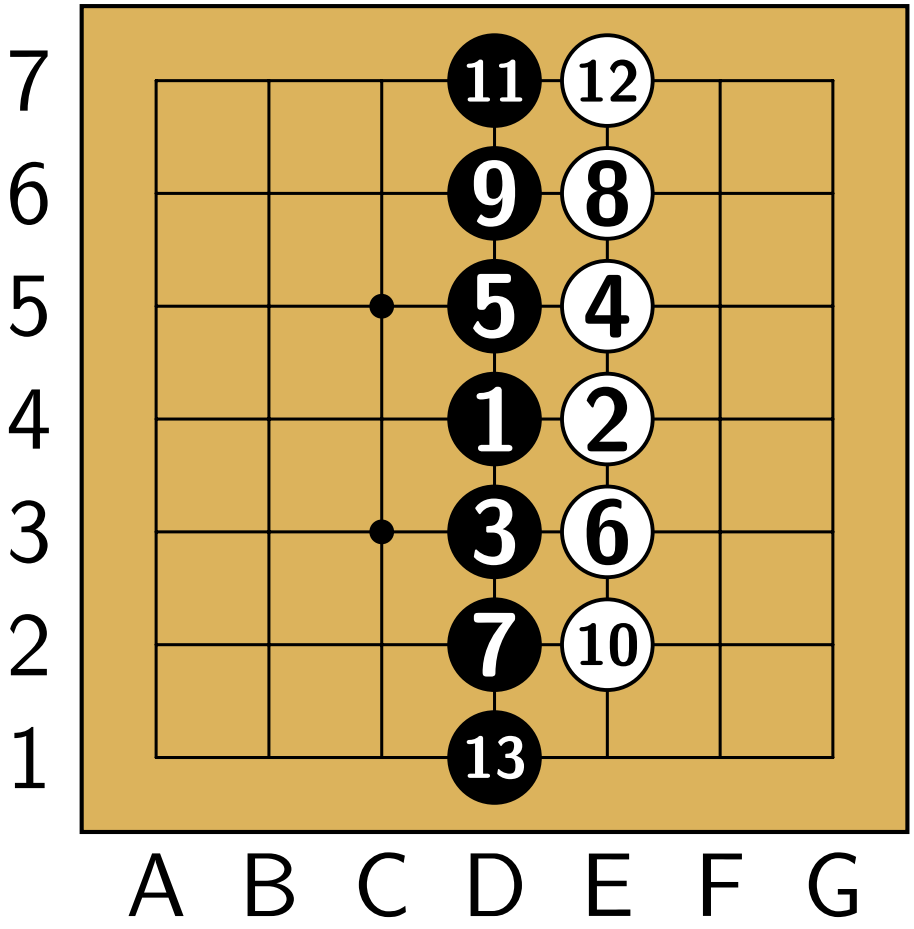

A short game

A short game

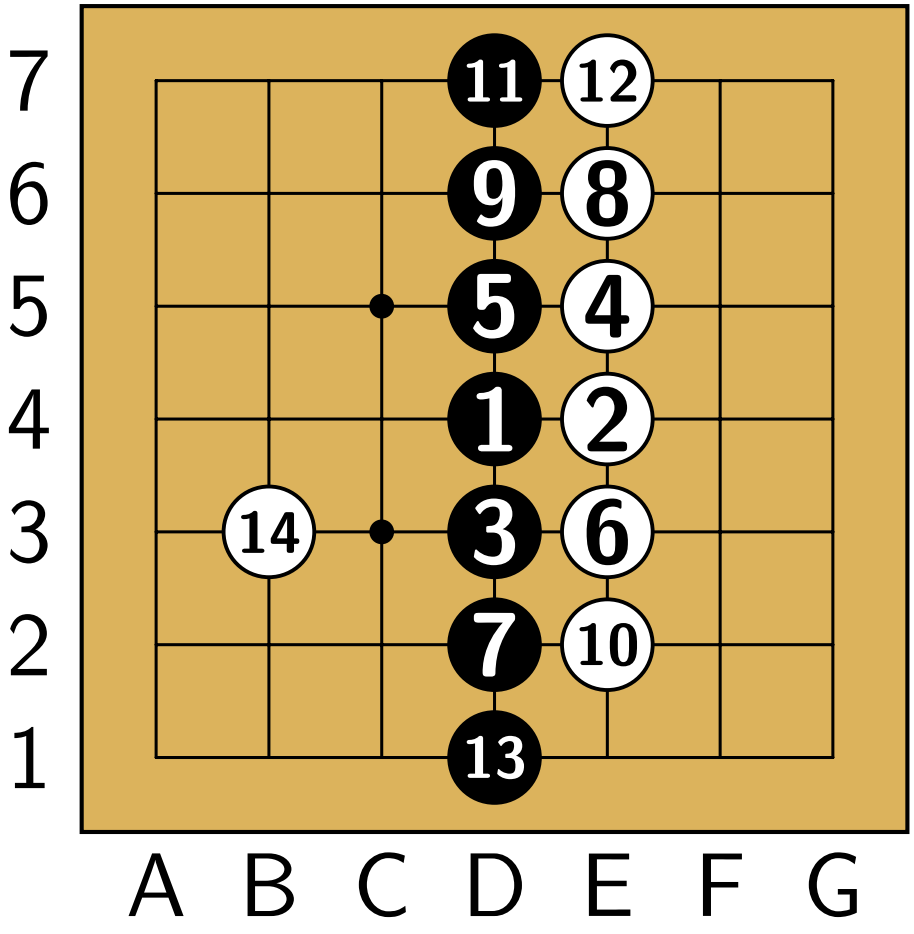

A short game

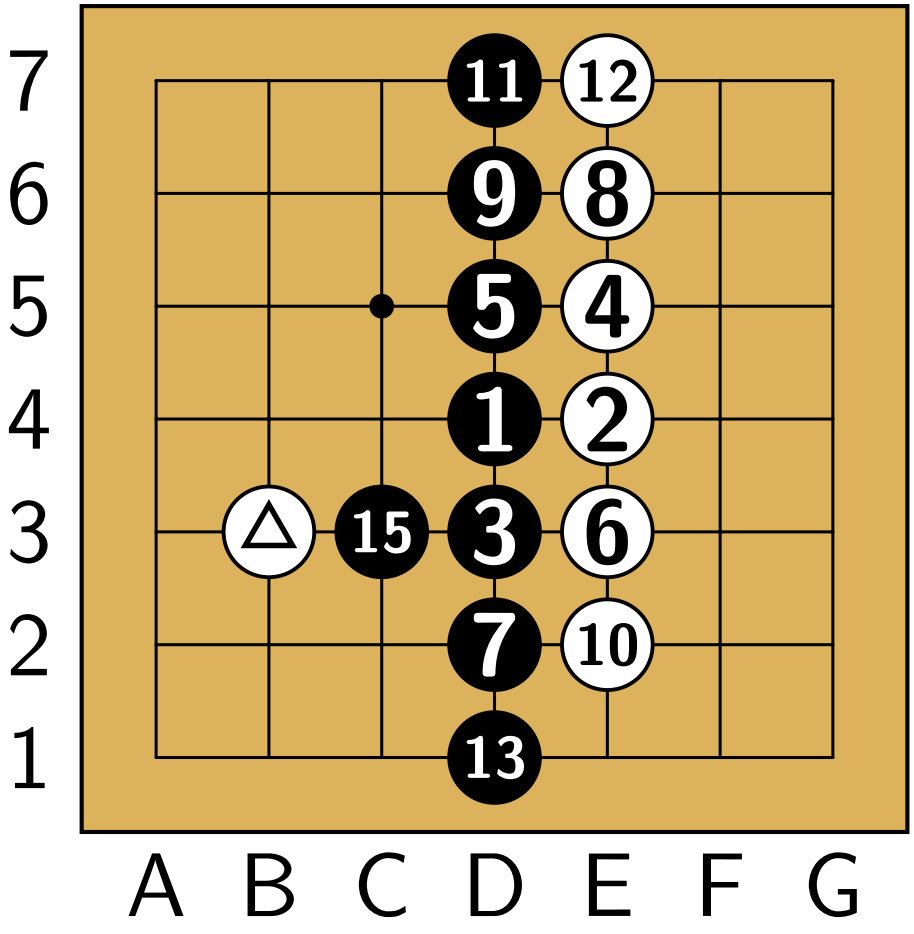

Tesuji. The last point of the wall.

A short game

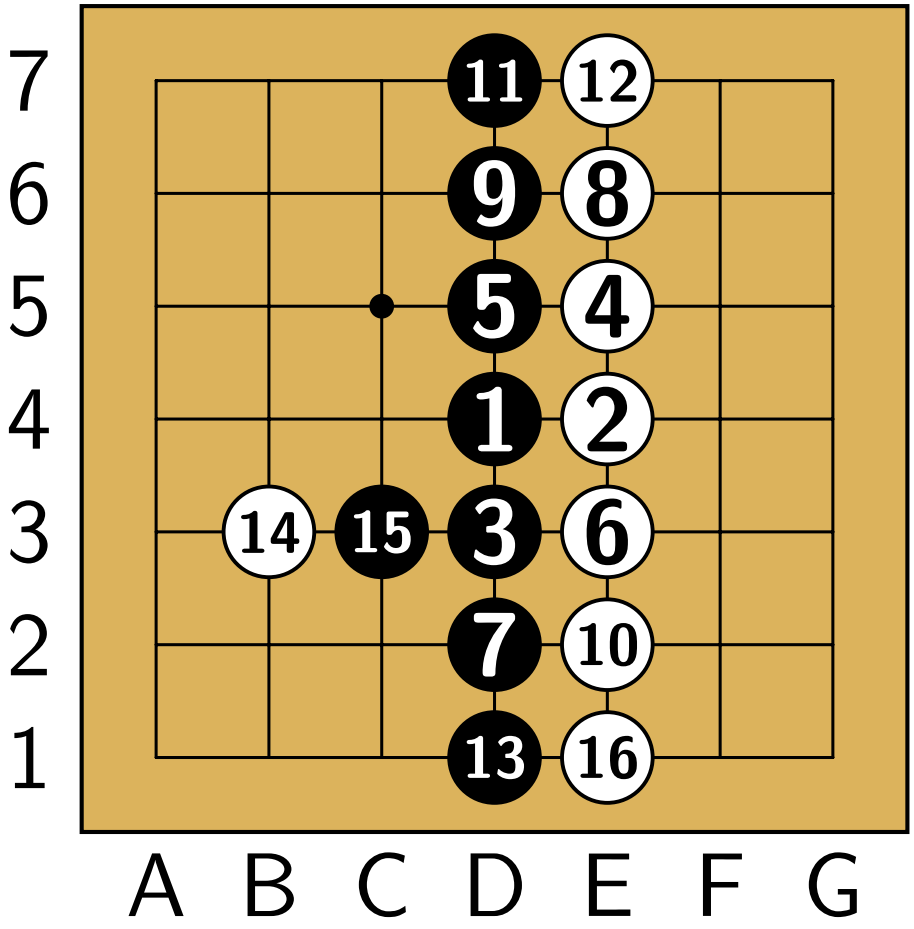

Bad move. White invades, but there is no room for two eyes.

A short game

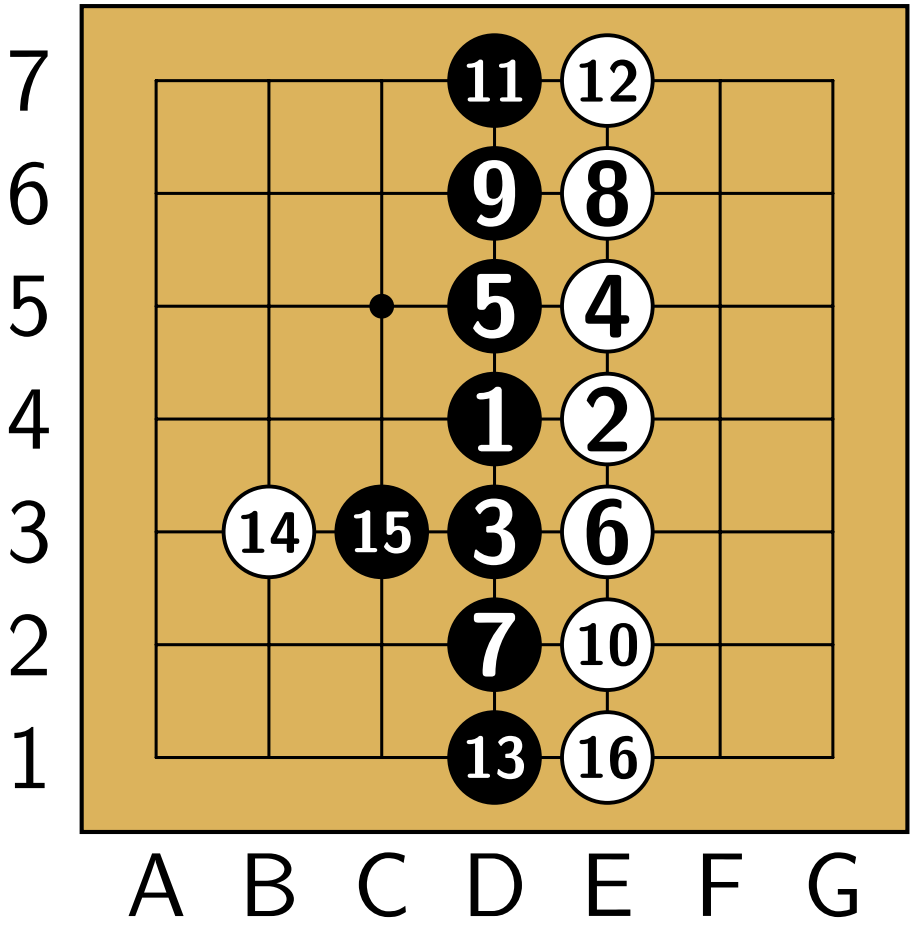

Black takes the vital point. The white stone is dead.

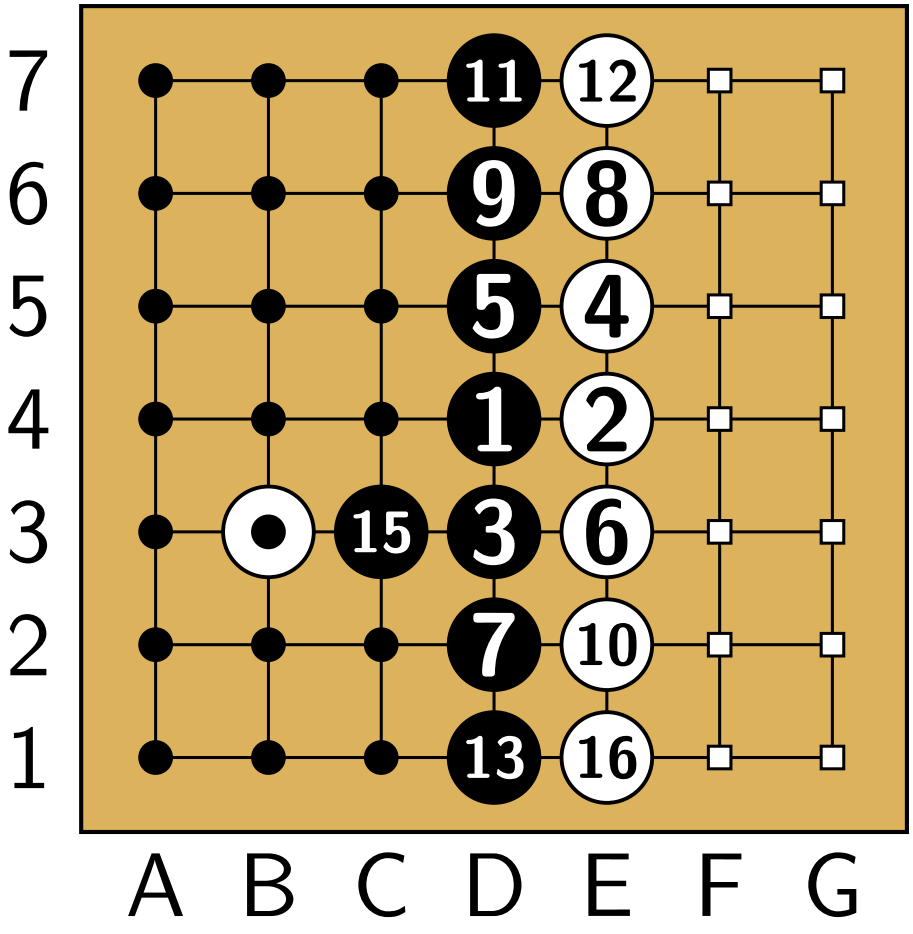

A short game

A short game

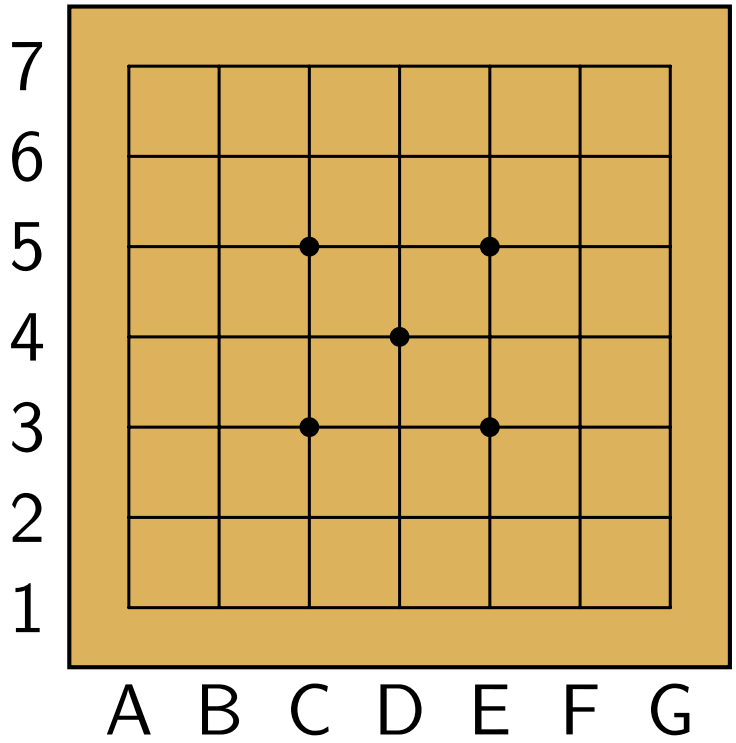

A short game

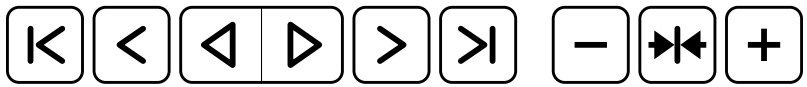

Black: 20 points and a prisoner.

White: 14 points and 6.5 of komi.

The same game with `animate`

A game on a 7x7 board, with comments.

The code of this presentation

```
\documentclass{beamer}
\usepackage{animate}
\usepackage[kernel = lua]{../../latex/pgf-go}

\pgfgoset{goban = {background = {fill = {color = pgfgo}}, label = {at = {south, west}}}}

\begin{document}
    \begin{frame}[t]{\sgfinfo{commented.sgf}{GN}}
        \begin{columns}[T]
            \column{0.5\textwidth}
                \foreach \k in {1, ..., 19} {
                    \only<\k>{
                        \begin{goban}[sgf size = commented.sgf, captures, scale = 1.5]
                            \sgf[to = \k - 1]{commented.sgf}
                        \end{goban}
                    }
                }
            \column{0.45\textwidth}
                \foreach \k in {1, ..., 19} {
                    \only<\k>{\small\sgfcomment{commented.sgf}{\k - 1}}
                }
        \end{columns}
    \end{frame}

    \begin{frame}{The same game with \texttt{animate}}
        \centering
        \sgfanimation[comments, comment height = 4em, goban = {captures, scale =
       ↪  1.2}]{commented.sgf}
    \end{frame}
\end{document}
```

Temporary page!

LaTeX was unable to guess the total number of pages correctly. A
there was some unprocessed data that should have been added
the final page this extra page has been added to receive it.
If you rerun the document (without altering it) this surplus page
will go away, because LaTeX now knows how many pages to expe
for this document.
